PROFESSIONALLY TRAINED PACKERS For hassle free moves

The programme and facility is the first of its kind to have been accredited by the Transport Education and Training Authority in South Africa.

But it doesn't end there. Managerial and operational staff are put through the rigorous University of Johannesburg Road Transport Management Diploma and Degree. This ensures that our customers enjoy the relocation experience they deserve.

Save up to

of moving
costs

By moving mid-month or in other off-peak periods, you can reduce the cost of your move considerably. Our rates are up to a third lower in off peak periods than at the end of the month. In fact, you'll be surprised at just how little your Biddulphs move could cost.

INTERNATIONAL REMOVALS

*A global network on
6 continents
= total peace of mind*

As SA's leading independent international movers, Biddulphs have a worldwide reputation for being one of the most dependable companies with which to entrust your prized possessions to and from South Africa.

And with our affiliation to Harmony Relocation Network, a global network on 6 continents, that means you're never alone, wherever in the world you may find yourself.

Customs with confidence

Regulations for the importation of household effects and vehicles vary from country to country. Our consultants will advise you of the procedures and documentation required, both here and at your overseas destination.

A full menu of moving options

Personal effects and household contents can be shipped by sea, air or land. You can also choose a Full Container Load or Groupage Shipment.

If you choose a Full Container Load, you decide when the container is shipped so that you can plan the packing and delivery dates. If it is a direct shipment (with no storage), the container will be loaded at your residence, secured and sealed with a bolt seal and your consignment delivered to your new residence overseas. The exception to this is where the destination authorities need to inspect the consignment.

For goods less than a container load, the economical choice is Groupage Shipment or Partload. Here your effects are shipped together with other household shipments which are bound for the same destination.

Personal immigration service

For your visa, temporary and permanent residence requirements, we recommend the services of an immigration specialist attorney. Biddulphs has a professional relationship with one of the leading immigration attorneys in South Africa. For more information, chat to one of our consultants.
